API	Heroku
GitHub/Git	Korean

Interests

Experience

General Assemb.ly NYC	FEB. 2016 - MAY 2016
WEB DEVELOPMENT IMMERSIVE	New York, NY

- 12-week intensive web development course to build several full-stack applications of varying complexity, and with a team in a development environment.
- Learned HTML, CSS, JavaScript/jQuery, APIs, node.js, express.js, mongoDB, React.js, Ruby, Rails, SQL to implement on front-end web applications / full-stack web applications. (listed below)

PROJECTS

Hidden Agenda - Group Project

- Developed by using reactJS, Flickr API and mapbox API. Hidden Agenda will allow a user to save their favorite travel destination's photos.The user will be able to append photos by search and using ruby on rails to save it on the backend server and re-append it to the saved page.

Mapado NYC - Group Project

- Mapado NYC was developed with MongoDB, Express, NodeJS, external API, and ReactJS to build full-stack task managing the application. This is task managing app that focuses on visualizing upcoming user's events by displaying them through a list and map.

recyclE.mE.nyC - API

- Engineered with HTML5, CSS3, JavaScript, and third-party API database from New York open Data. The user is able to search for recycling bins within NYC parks in all 5 boroughs. App Implemented with handlebarJS to display recycle bin map and its information.

NBA Trivia: True or False

- Programmed with HTML5 / CSS3/ JavaScript, inspired by currently and historical fun facts of NBA. Created true/false buttons for each trivia question. The game will end by user answering all 10 questions correctly or the user selecting the wrong answer.

Sylvan Family Eyecare	MAR. 2015 - JAN. 2016
OPTICAL TECHNICIAN	Englewood Cliffs, NJ

- Used lensometers or lens analyzers to determine lens prescription for clients.
- Assembled eyeglasses by fitting lenses into frames; when required cut and edge lenses to fit frames.

Noah Bank	JAN. 2014 - FEB. 2015
ASSISTANT SMALL LOAN OFFICER	Palisades Park, NJ

- Analyze applicants' financial status, credit, and/or property evaluation to determine the feasibility of granting loans.
- Obtained and compiled copies of loan applicants' credit histories, corporate/personal financial statements into Underwriting.

Education

CUNY School of Professional Studies

NEW YORK, NEW YORK

- Bachelor of Science in Business | Deans List | Cum Laude
